

## Mobile Rock Climbing Bungee Wall

### Access Area Required:

- Rock Climbing Bungee Wall towed by a standard 4WD vehicle.
- Gate entrance of 2.5m wide x 3.5m high.
- Straight access, no turns required close to any gate.
- Any trees, and over hanging branches must be above 3m on our intended access.
- We need suitable space to turn around when exiting.

### Set Up Area Required:

- A moderately flat level site is best to set the Rock climbing Bungee wall up.
- We can set up on any surface that can withstand the weight of the wall, 2.5 tonne.
- The set up area required is 14m wide x 10.5m long x 8m high.
